

General foundation

The Chiune Sugihara Memorial Foundation

Request for donation

Chiune visa is
still alive

In the future, the foundation will announce the latest results of research on Chiune Sugihara through publications and lectures.

In addition, through picture books, music, theater and videos, children who will lead the future will be taught and learned the "heart of humanitarianism" set by Chiune Sugihara and the "heart of symbiosis" that accepts differences in race and religion.

We will develop activities that can be connected to.

We will also recognize and support individuals and groups who have practiced and contributed to humanitarian activities.

Your important donations will be used effectively for the above activities.

We kindly ask for your understanding and cooperation in this matter.

Donation payee
